THIRD THURSDAYS: THINGS FROM THE FIELD

WHAT IS IT?

A new, monthly event in 2024 to meet Sac Valley orchard advisors and other industry members in a casual setting and get timely updates on issues we've been seeing in the field.

Orchard management topics (earn CEUs):

The first hour will feature lunch, a UCCE talk and Q&A on an orchard topic relevant to the time of year. In April, Curt Pierce will focus on on start-of-irrigation considerations for walnut. Learn about what recent research has shown about the potential benefits to walnut tree health and production factors from delaying the start of the irrigation season into May or later.

Open discussion:

After the talk, bring observations, questions, and pictures about your orchards for UCCE advisors and the group to address.
