

THIRD THURSDAYS: THINGS *FROM THE* FIELD

WHAT IS IT?

A monthly event in 2024 to meet Sac Valley orchard advisors and other industry members in a casual setting and get timely updates on issues we've been seeing in the field.

Orchard management topics (earn CEUs):

The first hour will feature lunch, a UCCE talk and Q&A on an orchard topic relevant to the time of year. In June, Bruce Lampinen and Clarissa Reyes will focus on some weather issues we've encountered this year that may impact walnut growth and quality, including late-autumn freeze damage, late spring rain, and hail damage.

Open discussion:

After the talk, bring observations, questions, and pictures about your orchards for UCCE advisors and the group to address.
