

You are invited to...

VIRTUAL MEETING PART 2:

Using Crop ET Reports from a Soils Perspective.

Online through Zoom

Tuesday, April 21st, 3:00-4:00pm

Please join Allan Fulton, UC Irrigation and Water Resources Advisor, for this interactive learning session to discuss how to use weekly crop water use reports, with soil water storage in mind.

Participation is free, but you **must pre-register**. To participate, register before the webinar at <https://ucanr.zoom.us/meeting/register/tjYqdOGtrDMsGNKSVMM-1dkWv8yGK-FzpmG1>. After registering, you will receive a confirmation email about joining the meeting.

This webinar will follow up on Part 1: Putting Crop ET Reports to Work for You. To best understand Part 2, please watch Part 1 beforehand at <https://www.youtube.com/watch?v=1snOHbS5nWk>.

THIS EVENT WILL BE RECORDED FOR EDUCATIONAL OR PROMOTIONAL USE BY THE UNIVERSITY OF CALIFORNIA. If you do not wish to be recorded, please use "Chat" to ask questions and keep yourself muted during the event.

This event will take place over Zoom, a video conferencing and webinar service. If you have not used Zoom before, please allow a few minutes to load the program on your computer, tablet or smart phone. Allan will be referring to content on the screen, so just phoning in for audio will not be very useful. If you are unfamiliar with Zoom, assistance is available for new Zoom users beginning at 2:30 p.m. Please provide a phone number when registering if assistance with connecting to Zoom may be needed.

Contact anrprogramsupport@ucanr.edu for more information on registering. If you have questions about the content of the event, contact aefulton@ucanr.edu.
